Malaka Hostel is a band of 5 musicians, plus a technician (6 people).

Sometimes we will be 6 musicians + technician. In that case we will inform you beforehand.

Parking:

We need a parking space for the band vehicle (a large Mercedes Sprinter, height: 2.70m) in close proximity to the performance venue and possibly at the accommodation location. If transport by air or rail has been arranged, this can be omitted.

Backstage/Stage:

Thank you for providing 6 clean towels and a quiet place where we can relax.

Catering:

Still water (at least 6x1 liter in resealable bottles) must be available on stage. We also appreciate coffee/espresso, a bottle of good vodka, non-alcoholic drinks, as well as beer and sparkling wine in the backstage area. Salad and fruit will help us get through the tour. There are 2-3 vegetarians.

Accommodation:

We need 3 twin rooms (with separate beds) or 6 single rooms in a good, nearby hotel **with breakfast** in the morning. Please arrange for a late check-out. Band apartments are possible if they are comfortable, clean, individually accessible at any time, and promise a restful night.

Please note: Two band members are allergic to down (bedding) and animal hair: Holger Schütze and Joshua Castillo.

I have read the rider and agree to all the agreements contained therein with my signature. Deviations are to be discussed with the above address. We are aware that not all points of the rider are always possible. However, we ask that deviations be communicated so that we can make preparations ourselves.
